

XENOL ELITE 10W-40 SL/CF

Product Description and Field of Use

It is a semi-synthetic engine oil produced to meet the lubrication needs of normal suction and turbocharged engines as a result of blending synthetic and high-quality base oils and high-tech additives. It is recommended to be used in all gasoline, diesel and LPG passenger automobiles and light commercial engines.

Properties and Benefits

- Low oil consumption thanks to viscosity control.
- Prevents the accumulation of ash and sediment in the engine thanks to the special additives in its content. Improves performance and extends the life of the engine by keeping critical components clean and protects the engine against corrosion and wear.
- Creates a durable oil film on the engine component in all climatic conditions and at all temperatures, minimizing wear during engine start-up and warm-up.

Specifications and Approvals Fulfilled

API SL/CF, ACEA A3/B4, MB 229.1, VW 501.00/505.00, RN710

Typical Properties*

TEST	UNIT	TEST METHOD	TYPICAL VALUES
Density, @15 °C	g/cm ³	ASTM 4052	0.87
K. Viscosity, @ 100°C	cSt	ASTM D 445	12.5-16.3
Viscosity Index		ASTM D 2270	140
Flashing Point	°C	ASTM D 92	214
Pour Point	°C	ASTM D 97	-32

* Values may vary between productions.

Storage Conditions

It should be protected from direct sunlight and precipitation. Packages should be stored in a sealed way, under a porch or in indoor areas. Storage temperature should be between (+5)-(+40)°C.

Health and Safety Information

In the light of the available information, this product is not expected to create a negative impact on human health when used in the intended location and under the specified conditions of use. Used product should not be incinerated or poured into soil and waste water channels. Waste oils should be sorted into categories according to Regulation on Control of Waster Oils, and disposed of via licensed enterprises having the properties defined in this regulation. Please read the Material Safety Sheet when necessary.
